Home Beautifying

The principles of proper planting are not hard to master. The shrubs should be massed into corners and borders, and a selection made differing in height so that all of them can be seen and intermingle in effect, with their bloom coming at different seasons so that they are always interesting. You can easily choose this graduation from the lists referred to. One often sees an elegant house that lacks the final touch to change it into a "home." Landscape planting is the frame of the picture; the artistic setting; that final touch that changes your house to a home.

As a background or a frame to the picture which is to be created, shrubs or trees are indispensable. The idea being to have the surroundings harmonize so that the impression will be comfortable and homelike. If you need any assistance in producing an artistic effect our landscape department is at your command.

 American Ivy—Very hardy; fine for trellis and walls.

The picture on the left shows a pleasing planting about an entrance. The honey-suckle vine entwined about the porch adds charm to the residence. The picture to the right shows good use of the *Hydrangea paniculata grandiflora* as a foundation and porch planting. A climbing rose is here used to advantage in the decorating of the large porch.

Foundation Planting for Factories

The plantings below show the value of mass planting. The one on the left consists of Barberry Thunbergii, Deutzia Gracilis, and Englemanni Ivy which is the vine that, in a few years will thoroly beautify this home. The picture on the right is of an ideal home and shows good use of a specimen tree. The shrubs planted surrounding this home are: Snowberry, Syringa, Rhodotypos, Barberry Thunbergii and Fragrant Sumac.
